PROFESSIONAL SUMMARY

Bilingual (English/Spanish) Full Stack Developer with 3+ years of experience building production web applications, specializing in Front-End development with React, Next.js and TypeScript. Led end-to-end projects for clients in technology, healthcare, real estate, urban planning and manufacturing, from requirements and UI design to REST APIs, PostgreSQL databases and deployment on Vercel. Experienced in integrating AI into full stack applications using the OpenAI and Anthropic (Claude) APIs. Most recently developed front-end for a global technology brand at WPP Production, where I also trained and mentored junior developers.

TECHNICAL SKILLS

Front-End: JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, Sass, Redux, Framer Motion, Bootstrap, Ant Design, Responsive Design

Back-End: Node.js, Express, REST APIs, NextAuth (Auth.js), Prisma, Sequelize, Nodemailer

Databases: PostgreSQL, SQL

AI Integration: OpenAI API, Anthropic Claude API, LLM integration in full stack apps, prompt engineering, AI-assisted development (Claude Code)

Tools & Cloud: Git, GitHub, Vercel, Cloudinary, Google Calendar API, Google Maps, MercadoPago API

Leadership & Methods: Agile / Scrum, technical leadership, mentoring junior developers, product management, client communication, technical documentation

PROFESSIONAL EXPERIENCE

Full Stack Developer & Project Leader | Desarrollo Sur **Oct 2024 – Present**

- Led end-to-end development of an urban advisory platform with a token-based credits system (100 free tokens on sign-up), admin dashboard and content management.
- Implemented the full authentication flow with NextAuth: sign-up, login and password reset.
- Maintain and evolve the platform as an ongoing client, including deployments and domain configuration.

Stack: Next.js, TypeScript, Prisma, PostgreSQL, NextAuth, Cloudinary, Nodemailer, Vercel · desarrollosur.com

Freelance Front-End Developer | WPP Production (formerly Hogarth) **Jul 2025 – Sep 2026**

- Developed front-end features and pages for the website of one of the world's leading technology companies, working within a global production team.
- Trained and mentored junior developers in the final months of the engagement, onboarding them to front-end best practices and the project's workflows.
- Wrote technical documentation and supported project management.

Freelance Full Stack Developer | Tobías Giménez Hutton **Jan 2026**

- Built a personal and professional content platform for an architect and urbanist: article blog with tags, publications and research sections, and a contact form.
- Developed an auth-protected admin with a TipTap rich-text editor, Cloudinary image uploads and article stats, so the client publishes on his own.

Stack: Next.js, TypeScript, Prisma, PostgreSQL, NextAuth, Cloudinary, Tailwind CSS · tobiasgimenezhutton.com

Lead Developer | Grupo DAP **Mar 2025 – Jul 2025**

- Led development, UI design and product management of a web app for Grupo DAP, Saxun's exclusive distributor in Argentina and a leading manufacturer of blinds, pergolas and automation systems.
- Built a Google Maps store locator backed by an admin panel where the team manages its resellers.
- Defined features and priorities with stakeholders, taking the product from concept to production.

Stack: Next.js, TypeScript, Prisma, PostgreSQL, NextAuth, Google Maps, Tailwind CSS · grupodap.vercel.app

Freelance Full Stack Developer | Nicolás Taccone PhD **Apr 2025**

- Built a professional profile web application for a Political Science PhD.
- Redesigned in 2026 as he moved to Tulane University.

Stack: Next.js, TypeScript, Tailwind CSS · nicolastaccone.com

Freelance Full Stack Developer | Odontología Juramento **Dec 2024 – Feb 2025**

- Built an internal management system for a dental clinic covering patient clinical records and appointment scheduling.
- Integrated the Google Calendar API to sync appointments with the clinic's calendar.

Stack: Next.js, TypeScript, Prisma, PostgreSQL, Google Calendar API · odontologiajuramento.vercel.app

Freelance Full Stack Developer & Project Leader | Arcadia El Caracol **Jun 2023 – Jul 2023**

- Built the landing page and backend with an automated email system for a real estate project in Uruguay.

Stack: Next.js, React, TypeScript, Nodemailer · arcadiaelcaracol.com

Front-End Developer (Internship) | Uils (Techstars '23) **Mar 2023 – Sep 2023**

- Developed public user profiles and back-office features for a Techstars-backed startup.

Full Stack Developer (Bootcamp Project) | Henry Music App **Dec 2022 – Jan 2023**

- Built an e-commerce app with product catalog, authentication, admin dashboard, MercadoPago payments, image uploads and email notifications.

Previous career (2010 – 2019): B2B Sales & Foreign Trade at Ancers S.A. (2010 – 2018) and Wholesaler at VCP (2018 – 2019), building strong client negotiation and business skills.
